EDUCATION

Bachelor of Technology, Computer Science and Business Systems

Oct 2022 - Apr 2026

Chennai Institute of Technology

CGPA: 9.0 / 10.0

Coursework - Software Engineering, Data structures, Database Management System, Operating Systems, Computer Networks, Theory of Computation and Compiler Design

SKILLS

- **Programming Languages:** Java, Python, HTML, CSS, JavaScript
- **Web-Frameworks:** React.js, Bootstrap, Django, Node.js, Express.js
- **Software:** Git, GitHub, Docker, VS Code, Figma, Canva, LangChain, LLMs
- **Database and Cloud:** MySQL, MongoDB, Amazon Web Services (AWS)
- **Operating Systems:** Windows
- **Soft Skills:** Leadership, Effective Communication, Team Collaboration
- **Spoken Languages:** English, Tamil, Hindi

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern – IMrobonix Pvt. Ltd., Chennai (On-site, 6 weeks)

May 2024 – Jun 2024

- Built a MERN based e commerce platform with responsive UI scalable REST APIs and MongoDB integration improving usability metrics by 30%.
- Integrated Razorpay payment gateway with secure order processing validation and error handling reducing checkout friction and cart abandonment by 20% overall.

Full Stack Developer Intern – PreludeSys India Pvt. Ltd., Chennai (On-site, 4 weeks)

Nov 2023 – Dec 2023

- Developed a Django based accent evaluation system using structured workflows data validation and Agile iterations improving speech assessment accuracy by 25%.
- Implemented speech to text pipelines using SpeechRecognition and Google Web Speech APIs tested with 50 plus users across diverse accents reliably consistently.

UI UX Designer Intern – Karthikesh Robotics Pvt. Ltd., Chennai (On-site, 6 weeks)

Jun 2024 – Aug 2024

- Designed and built a retail website using Figma and React aligning UX principles with business goals to increase engagement by 30%.
- Optimized frontend performance using code splitting and lazy loading reducing load times by 40% and bounce rates by 20% overall.

PROJECTS

RoboFactory

Tech Stack: React.js, Node.js, MongoDB, Express.js

- Devised a full stack e commerce platform for robotic products supporting secure Razorpay payments inventory tracking and structured product management workflows.
- Orchestrated responsive frontend workflows and backend coordination improving navigation purchase flow and increasing user retention metrics by 25%.

Online Speech Therapist

Tech Stack: Django, SQLite, Intel Neural Chat LLM, Intel OneAPI Developers Cloud, JavaScript

- Engineered an AI driven chatbot for automated speech screening sessions reducing manual assessment time by 35% and enabling earlier detection.
- Connected Intel Neural Chat LLM with Django backend delivering interactive conversations screening insights and handling 100 plus simulated evaluation sessions reliably.

Real Time Chat Application

Tech Stack: React.js, Node.js, MongoDB, Express.js, Socket.io

- Constructed a real time chat system using MERN and Socket.io enabling instant bidirectional messaging across multiple concurrent user sessions.
- Achieved sub 50 ms message delivery latency through efficient event handling real time updates and responsive interface rendering under continuous usage.

COMPETITIVE PROGRAMMING

- **LeetCode:** Solved over 900+ problems across various difficulty levels and achieved a contest rating of 1700+

ACHIEVEMENTS

- **Finalist** – Tamil Nadu State Police Hackathon 2024
- **Finalist** – Intel AI Hackathon, Daksh 2024
- **Finalist** – Encrypton Hackathon, IIT Madras
- **National Semi-Finalist** – Flipkart Grid 7.0

CERTIFICATIONS

- **AWS Certified Cloud Practitioner:** Amazon Web Services (AWS)
- **Programming in Modern C++:** National Programme on Technology Enhanced Learning (NPTEL)
- **Introduction to Large Language Models (LLMs):** National Programme on Technology Enhanced Learning (NPTEL)

VOLUNTEERING

- **Documentation Lead and Treasurer – TEDx CIT:** Handled documentation and finances for TEDx event.
- **Event Lead – AlgoRhythms'25, Zorphix:** Spearheaded the flagship coding event, handling coordination, and execution.
